EDUCATION

Master of Computer Applications (MCA)

K.K. Wagh Institute of Engineering
Education & Research, Nashik

2025 – Present | SGPA: 8.23

Bachelor of Computer Applications (BCA)

Veer Narmad South Gujarat University

2022 – 2025 | CGPA: 6.97

Class 12 – Commerce

Vidya Vihar Sankul

2022 | 69.06%

Class 10

Suman High School No. 5

2020 | 52.5%

CERTIFICATIONS

- Java Full Stack Developer – Telusko
- Mobile App Development – MKCL

PROFESSIONAL SUMMARY

Motivated MCA student with hands-on experience in Java backend development using Spring Boot, Spring Security, Spring MVC, Spring Data JPA, Hibernate, REST APIs, and MySQL. Proficient in designing and developing RESTful services with JSON-based communication, implementing CRUD operations, role-based access control, and MVC architecture. Strong core Java skills including OOP, Collections Framework, exception handling, and Data Structures & Algorithms, with 50+ LeetCode problems solved. Familiar with Agile development, Git, GitHub, Maven, and Postman for API testing. Seeking a Backend Developer or Java Developer role to build scalable, production-quality software solutions.

PROJECTS

CivicConnect – Smart Citizen Complaint Management System Jan 2026

Java, Spring Boot, Spring Security, Spring Data JPA, Hibernate, MySQL, REST API, Maven, Git

- Architected a full-stack backend application enabling citizens to report civic issues (road damage, drainage, water leakage, streetlight failures) with real-time complaint lifecycle tracking: Submitted → In Progress → Resolved → Closed.
- Implemented Spring Security for secure authentication and role-based access control (RBAC) with differentiated access for citizens and municipal administrators.
- Developed RESTful APIs with JSON-based communication and CRUD operations using Spring Boot, Spring Data JPA, and Hibernate; designed and optimized a normalized MySQL schema for complaint categorization, user management, and location tracking.

Local Connect – Community Service Platform Mar 2026

Java, Spring Boot, Spring Data JPA, Hibernate, MySQL, Maven, Git

- Developed backend services for a community platform connecting local users with nearby businesses, implementing MVC architecture and Spring Boot best practices.
- Built CRUD operations for service listings and user management using Spring Data JPA, Hibernate, and MySQL; managed builds and version control using Maven and GitHub.

Smart Expense Tracker Jul 2026

Java, Spring Boot, Spring Data JPA, Hibernate, MySQL, REST API, Maven, Git

- Built a backend application enabling users to log, categorize, and track daily expenses with monthly budget limits and spending summaries.
- Designed RESTful APIs and a normalized MySQL schema for expense categories, transactions, and user accounts; implemented CRUD operations using Spring Data JPA and Hibernate.
- Implemented authentication and secure user session handling with Spring Security, and used Postman for end-to-end API testing.

INTERNSHIP EXPERIENCE

Software Development Intern — Tech Ready Solution Apr 2025

- Contributed to backend web application development and maintenance; assisted in implementing and testing application features using backend technologies.
- Collaborated with the development team to debug modules, participated in Agile-based software development activities, and contributed to application feature enhancement.

LEADERSHIP & CO-CURRICULAR

Vice President — ACE Club (Technical Club)

- Led and coordinated technical seminars, and planned upcoming technical & non-technical activities.

Event Head — Art Arena, Asend 2K26

- Managed end-to-end event planning, coordination, and successful execution.

ACHIEVEMENTS

- Solved 50+ LeetCode problems; earned 50 Days Badge for consistent DSA and problem-solving practice.
- Finalist — IndiaNext Hackathon, Mumbai, recognized for an innovative software solution under competitive conditions.
